Lid Colour Options

Lids are offered in white, yellow, black, orange, tiger stripe, green, blue, grey or red. Please note that FSH25 lids are only available in white, black, orange, green, yellow and yellow tiger stripe.

Technical Specification

Units are tested to NHS HTM05-03 for Fire Safety and conform to NHS HTM WM0701 for colour coded waste segregation.

Bodies are manufactured from PVC an inherently fire retardant material; lids from ABS – VO fire classified and the bases from fire retardant Polyethylene.

Other Options

- 1) For use in mental facilities we can provide removable bodies with easily removable lift out internal sealed liners, so eliminating the use of plastic sacks and potential ligature issues (add to product code –“MEN”). This option is not available on the 25 litre size.
- 2) Clear bodies with sealed bases are available for recycling purposes (add “CLE” to product code)
- 3) Split liners (2 x 35 litres) together with split coloured lid are available for nominated segregation of waste (Product Code FSH65/SPLIT)

Guarantee

All sack holders carry a 10 year warranty subject of course to normal wear and tear
